Helicopter pilot for a day

1 Pers.	1740.00 CHF

Who would not ever want to be a pilot? Realize your hobby or taste of your dream career and become a helicopter pilot for a day. Experience the fascination of flying yourself as a full-day experience. Besides, you will gain insight into the helicopter flying and in the profession of helicopter pilots.

The day begins just after the welcome by your flight instructor with a theoretical introduction to the operation and control of a helicopter (about 1.5 h).

This is followed by 20 minutes in flight briefing with your instructor. They are used to control the helicopter itself. Then plan with the help of your instructor a 60 minute flight in which you specify a route to specified landmarks. You will be made familiar with and learn the basic concepts of meteorology and navigation, which must be considered when a flight operations.

After a snack in the restaurant of the airport hotel fly the prepared flight with your instructor. You will not only enjoy the flight, but also the sense of achievement you navigate through the air. You will end up outside the airfield in open terrain. The helicopter makes it possible!

Finally you will receive as a reminder a training video "Fly the Robinson R22" and an A4 photo that shows you as pilot by helicopter.

Location Donaueschingen
Helicopter type Robinson R22
80 min. Flight € 1350.-

Monday to Friday bookings (Mo-SA flyable), times are pure flight time (turn on/off the motor) flight in R22 from 95 kg on request.
